

GROUPS

AUTISM SOCIAL SKILLS GROUP

SDRC offers a 6-week social skills group to children/youth with an autism spectrum disorder between the ages of 11 and 17 years.

A referral is required as this is not a drop-in group.

AUTISM MONTHLY SOCIAL GROUP

SDRC offers a monthly social group for youth between the ages of 14 and 17 years with an autism spectrum disorder with no intellectual disability.

Individuals must be able to be independent. The purpose of the group is to help individuals develop social skills.

A referral is required as this is not a drop-in group.

WORKSHOPS

The Autism Behaviour Consultant is currently offering workshops on the following topic: "Strategies and Tips to help with School Refusal Issues".

Please visit our website at www.sdrc.ca for workshop dates and times.

Autism Behaviour Consultation

WHO WE ARE

Sunbeam Developmental Resource Centre (SDRC) serves as the single point of access for clinical services, service coordination, children's residential services, children's respite and service resolution.

These services are available to children and adults in Waterloo Region who have an intellectual disability and/or an autism spectrum disorder.

AUTISM BEHAVIOUR CONSULTATION

SDRC offers Autism Behaviour Consultation to youth with an autism spectrum disorder between the ages of 14 and 21.

The goal of the consultation is to help individuals and/or their caregivers work through behavioural difficulties (e.g., physical aggression, anxiety, and emotional regulation). The Consultant will coach the parent/caregiver to support the individual with ASD through the use of positive interventions such as positive reinforcement and modelling.

REFERRALS

All referrals for children under the age of 18 years can be made by calling Sunbeam Developmental Resource Centre at 519-741-1121.

Referrals for those 18 and older must be deemed eligible through Developmental Services Ontario by calling 1-888-941-1121

WHAT WE KNOW

- People behave in certain ways because those behaviours get their needs met.
- Behaviour needs to be understood in relation to the person's physical health, emotional well-being and cognitive functioning level.
- Events that come before and after the behaviour need to be examined.
- We can model and support more positive behaviour.

WHAT CONSULTATION CAN DO

- Help people understand why unwanted behaviour occurs.
- Offer suggestions about ways to change the situations in which the behaviour occurs.
- Explore with parents and care providers other ways to address behaviour.

WHAT TO EXPECT ONCE A REFERRAL IS ACTIVATED

1. To help understand why people act the way they do, the Consultant will need information from you. The Consultant will need you to record information about the behaviour (e.g., what happens before the incident, what is happening during it and what happens afterwards).
2. You may need to make some changes to your family's routines and your home environment. Sometimes the best way to stop behaviour from happening is to prevent it from occurring in the first place.
3. The individual may be asked to see a doctor to make sure that there is nothing wrong physically that may be causing the behaviour. If your child is on medication the doctor may want to do a medication review, e.g., reconsider the dosages, the times they are given or prescribe a different medication altogether.
4. The Consultant will work with you to develop ideas to change the behaviour, but you may need to change your behaviour too. You may be asked to respond to it in a different way. You will need to respond to the behaviour in the same way all the time otherwise the ideas we give you will not work.
